# Weekly Coal Production

Energy Information Administration  
Washington, D.C.

Production for Week Ended:  
January 26, 1985

Published:  
February 1, 1985

## Highlights

Production of bituminous coal and lignite in the week ended January 26, 1985, as estimated by the Energy Information Administration, was 13,372,000 short tons. This was a decrease of 2,809,000 short tons or 17.4 percent from production in the previous week due to snow and severe cold weather in the Appalachian and Interior regions. Production in the corresponding week of 1984 was 16,786,000 short tons. Bituminous coal and lignite production from January 1 through January 26, 1985 totaled 56,310,000 short tons, and from January 1 through January 28, 1984 totaled 61,439,000 short tons.

Production of Pennsylvania anthracite in the week ended January 26, 1985, as estimated by the Energy Information Administration, was 59,000 short tons, 12,000 short tons less than production in the previous week. Production in the corresponding week of 1984 was 70,000 short tons. Anthracite production from January 1 through January 26, 1985 totaled 247,000 short tons, and from January 1 through January 28, 1984 totaled 257,000 short tons.
